Overview

Modern Bladeless Heating Solution

This bladeless tower heater combines advanced turbine airflow technology with a sleek, modern aesthetic suitable for professional and residential environments. It features a digital LED display for precise control, an integrated 24-hour timer, and a versatile clothes-drying function safe for bathroom use. Engineered for safety and efficiency, the unit includes essential protections such as tip-over switches and overheat sensors.

Key Features

Core Functionalities

- Bladeless turbine airflow technology
- Digital LED display
- Adjustable thermostat
- 24-hour programmable timer
- Clothes drying function
- Remote control operation

Operational Metrics

24 hours

Timer Duration

27 °C

Temperature Display

Safety & Compliance

Safety Standards

Tip-over switch, Overheat protection, Bathroom safe
