Product Overview

Professional Drywall Taping Knife

This premium drywall taping knife is engineered for smooth and efficient application of joint compound. Featuring a tempered blue steel blade with a tapered design, it allows for faster corner running and precise feathering. The tool is built for durability and user comfort, incorporating a heavy-duty aluminum backing plate for optimal rigidity and an over-mold soft grip handle to minimize fatigue during extended professional use.

Technical Specifications

Blade Material	Tempered Blue Steel
Backing Plate Material	Aluminum
Handle Type	Over-mold Soft Grip

Key Features

Design Advantages	Tapered Blade, Heavy Duty Backing, Ergonomic Handle, Fatigue Reduction, Corner Running Optimized
