

Borehole Submersible Deep Well Water Pump - 5QG Series

This submersible pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Borehole Pump

The 5QG Series submersible deep well pump is engineered for reliable water extraction in demanding domestic, civil, and industrial environments. Designed for efficient performance in boreholes, this unit features a robust construction suitable for irrigation and general water supply needs. With advanced motor technology and high-tolerance design standards, it offers a consistent and durable solution for deep-well water management.

Operating Conditions

Maximum Fluid Temperature	40 °C
Maximum Sand Content	3 %
Maximum Immersion Depth	50 m
Minimum Well Diameter	5 inches

Technical Specifications

Voltage Options

- Single-phase: 220V - 240V/50Hz
- Three-phase: 380V - 415V/50Hz

Motor Type	Rewindable motor
Performance Standards	ISO 9906, CE, RoHS, GS, CCC
Warranty	2 years
