

Box-Type Carbon Fiber Space Heater

This box-type carbon fiber heater is designed for efficient and safe space heating. It features multiple carbon fiber heating elements enclosed within a protective metal cage.

Product Overview

Efficient & Artistic Heating Solution

This box-type carbon fiber space heater combines an artistic, compact design with high-performance heating capabilities. Utilizing an innovative quartz core and an internal circulating fan, it ensures rapid and symmetrical heat distribution throughout the room. Designed for versatility and safety, it features multiple power settings and dual overheating protection mechanisms, making it an ideal choice for various indoor environments.

Technical Specifications

Heating Element	Quartz core with carbon fiber
Power Modes	3
Air Circulation	Yes

Safety Features

Safety Protections	Thermo Cut-off, Incline Cut-off, Dual Overheating Protection
--------------------	--

Design & Convenience

Portability	Integrated chain wheels for easy movement
Usage Environment	Indoor use only

Safety Guidelines

Important Safety Instructions

- Not suitable for individuals sensitive to temperature, pregnant women, or infants
- Keep infants away from the heater during operation
- Do not use in bathrooms, showers, or swimming pool areas
- Maintain distance from flammable items like curtains or bedding
- Do not cover the heater while in use
- Do not attempt to disassemble or repair the unit yourself
- Always turn off and unplug after use
