

Brass Angle Valve for Plumbing Systems

This angle valve is designed for precise flow control. It features durable brass construction with threaded inlet and outlet connections for secure, leak-free installation in residential and commercial applications.

Product Overview

Professional Plumbing Solution

This high-quality brass angle valve is engineered for precise flow control in demanding plumbing systems. Constructed with a durable brass body featuring a polished chrome finish, it ensures long-lasting performance and corrosion resistance. Designed for versatility, it is suitable for water applications and meets international threading standards for secure, leak-free installations.

Technical Specifications

Maximum Pressure

10 bar

Max Pressure

Available Sizes

- 1/2" x 3/8"
- 1/2" x 1/2"

Thread Standard

ISO-228-1:2000

Operating Temperature

-10°C

Construction & Materials

Finish

Polished Chrome

Body Material

Brass

Handle Material

Zinc (Brass)

Usage

Suitable Medium

Water
