

# Brass Ball Valve with Green Handwheel

This brass ball valve is designed for on/off control of fluids in various industrial and plumbing applications. It features a durable brass body, providing resistance to corrosion and high temperatures.

## Product Overview

### Industrial Brass Ball Valve

This durable brass ball valve is engineered for reliable on/off flow control in diverse industrial and plumbing systems. Constructed with a robust brass body, it offers excellent resistance to corrosion and high temperatures, ensuring longevity in demanding environments. The unit features a distinct green handwheel for manual operation and threaded ends for secure, leak-proof integration into existing piping infrastructure.

## Technical Specifications

Handwheel Color  
Green

Body Material  
Brass

Operation Type  
Manual Handwheel

Connection Type  
Threaded

## Applications

Compatible Media  
Water, Oil, Gas

Primary Function  
On/Off Flow Control
