

Brass Ball Valve with Hose Connector

This ball valve features a brass body, lever handle, and threaded connection. A green hose connector makes it suitable for garden or irrigation applications, providing reliable on/off control of fluid flow.

Product Overview

Professional Fluid Control

This high-quality brass ball valve is engineered for efficient on/off control of fluid flow in various plumbing and irrigation systems. Featuring a durable brass body and a reliable ball mechanism, it provides quick shutoff capabilities and long-lasting performance. The integrated green hose connector simplifies installation, making it an ideal choice for garden and outdoor water management applications.

Technical Specifications

Material	Brass
Mechanism	Ball Valve
Handle Type	Lever Handle
Connection Features	Threaded Connection, Hose Connector

Application

Primary Applications

- Garden Irrigation
- Outdoor Water Systems
- Fluid Flow Control
