

# Brass Ball Valve with Lever Handle

This ball valve is designed for on/off control of fluids and gases. It features a durable brass body and a lever handle for easy operation.

## Product Overview

### Reliable Flow Control

This brass ball valve is engineered for precise on/off control of fluids and gases in various professional environments. Featuring a robust brass body and an ergonomic lever handle, it ensures durability and ease of operation for plumbing, HVAC, and industrial systems. The design guarantees a reliable, leak-tight seal in the closed position and utilizes standard threaded connections for straightforward installation.

## Technical Specifications

Body Material	Brass
Connection Type	Threaded
Handle Type	Lever Handle
Nominal Size	0.5 inch

## Application

Suitable Applications	Plumbing, HVAC, Industrial Processes, Fluid Control, Gas Control
