

Brass Compression Tee Fitting

This is a tee fitting. It is made of brass.

Product Overview

Professional Compression Tee Fittings

These high-quality brass compression tee fittings are designed to provide reliable, leak-free connections for fluid piping systems. Engineered for durability, the RCF301 model supports a wide range of connection configurations for three-way piping junctions. These fittings are suitable for professional plumbing and industrial installations requiring precise size matching and robust material construction.

Technical Specifications

Size Range

- 15mm
- 22mm
- 28mm
- 35mm
- 42mm
- 54mm

Common Configuration Matrix

Main Run (mm)	Branch Options (mm)
15x15	15, 22
22x22	15, 22, 28
28x28	15, 22, 28
35x35	15, 22, 28, 35
42x42	15, 22, 28, 35, 42
54x54	15, 22, 28, 35, 42, 54

Connection Type	Compression (CxCxC)
Material	Brass
