

Brass Elbow Pipe Fitting

This brass 90-degree elbow fitting connects pipes at a right angle. It is made from high-quality brass, ensuring durability and corrosion resistance for plumbing, heating, and other applications.

Product Overview

Professional Grade Brass Elbow

This high-quality brass 90-degree elbow fitting is engineered for secure pipe connections in plumbing and heating systems. Featuring a durable brass construction, it offers excellent corrosion resistance and long-term reliability. The fitting is precisely machined with male and female threaded ends to ensure a leak-proof seal across copper, brass, and iron pipe installations.

Technical Specifications

Material	Brass
Angle	90 degrees
Connection Type	Male Threaded, Female Threaded
Size	1 1/2

Compatibility & Usage

Compatible Pipe Materials

- Copper
- Brass
- Iron

Applications

Plumbing • Heating Systems • Industrial Piping
