

Brass Full Bore Ball Valve

This brass ball valve features a full bore design for unrestricted flow. Its bare sizing allows for easy integration into existing piping systems and is operated by a lever handle for quick on/off control.

Product Overview

High-Performance Brass Ball Valve

This brass ball valve features a full bore design, ensuring unrestricted flow for optimal system efficiency. Constructed from durable, corrosion-resistant brass, it is engineered for longevity in plumbing, heating, and industrial applications. The valve is operated by a reliable lever handle, providing quick and easy on/off control for effective shutoff and flow regulation.

Technical Specifications

Standard
GB Standard

Valve Type	Full Bore Ball Valve
Material	Brass
Size Range	0.5 - 2 inches
Operation	Lever Handle

Applications

Suitable Applications	Plumbing, Heating Systems, Industrial Piping
