

Bronze Gate Valve for Plumbing and Industrial Applications

This bronze gate valve is designed for reliable shutoff and flow control in various plumbing and industrial applications. Constructed from durable bronze, it offers corrosion resistance and long-lasting performance.

Product Overview

Reliable Flow Control

This bronze gate valve is engineered for dependable shutoff and precise flow control across diverse plumbing and industrial environments. Crafted from durable bronze, the valve offers superior corrosion resistance and long-lasting performance. It features a manual handwheel for easy operation and provides a tight, secure seal to prevent leakage in water, oil, and gas systems.

Technical Specifications

Key Features

Corrosion Resistant • Tight Seal • Robust Construction

Material	Bronze
Compatible Media	Water, Oil, Gas
Operation	Manual Handwheel
