

Brushless Cordless Oscillating Multi-Tool

This cordless multi-tool is designed for a wide range of applications including cutting, sanding, and scraping. It features a brushless motor for increased power and efficiency, as well as extended runtime.

Overview

High-Performance Brushless Multi-Tool

This 18V cordless oscillating multi-tool is engineered for professional versatility, capable of sawing, cutting, and sanding across various materials. Featuring a high-efficiency brushless motor, it delivers extended runtime and increased power for demanding job site tasks. The ergonomic design and cordless portability ensure comfortable handling and maximum maneuverability in tight spaces.
