

Bundled Metal Bar Stock

These metal bars are available in bundled stacks. The profiles are rectangular or square and secured with metal straps.

Product Overview

Bundled Metal Bar Stock

This high-quality metal bar stock is supplied in a bundled format, optimized for efficient handling and logistics. The rectangular or square profiles feature a standard mill finish, making them suitable for a wide range of industrial applications including construction, manufacturing, and general engineering projects. The bundled configuration ensures organized storage and simplified transport for large-scale procurement.
