

# C-001R Crystal Oscillator

This crystal oscillator ensures stable frequency output for electronic applications. The C-001R is available in a metallic cylindrical enclosure with two leads.

## Product Overview

### C-001R Series Crystal Oscillator

The C-001R is a precision crystal oscillator designed for reliable frequency control in electronic applications. Featuring a durable metallic cylindrical enclosure, this component is engineered to provide stable performance in a compact form factor. It is part of a versatile series that includes multiple sizing options, such as the C-002RX, C-004R, and C-005R, making it suitable for various circuit design requirements.

## Technical Specifications

Component Type	Crystal Oscillator
Enclosure Style	Metallic Cylindrical
Lead Configuration	2-Lead Radial

## Series Information

### Series Models

- C-001R
- C-002RX (C-2 Type)
- C-004R (C-4 Type)
- C-005R
