

Canister Vacuum Cleaner with Hose and Wheeled Base

This compact canister vacuum cleaner features a flexible hose and a wheeled base for easy movement. It is designed with ergonomic controls to ensure user convenience and efficient cleaning.

Overview

Professional Performance in a Compact Form

The VCH-106 canister vacuum cleaner is engineered for efficient cleaning performance in varied environments. Featuring a 1000W motor and stepless speed regulation, it provides precision control for different surfaces. Its user-centric design includes a 360-degree rotating hose, foot-pedal switching, and a compact wheeled base for maximum maneuverability.

Technical Specifications

Rated Power

1000 W
Motor Power

Electrical Requirements	220V, 60Hz
