Car Multimedia System with Touchscreen

This car multimedia system features a color screen with a full touch operating system. It supports automatic reversing camera input and AV input, with adjustable automatic light sensing.

Overview

Advanced In-Car Multimedia Experience

This high-performance car multimedia system integrates a responsive full-touch color screen with a comprehensive suite of entertainment and navigation features. Designed for seamless vehicle integration, it supports automatic reversing camera input, high-sensitivity AM/FM radio, and intuitive handwriting input for navigation. With built-in Bluetooth hands-free capabilities and versatile media playback, it provides a modern, connected driving experience suitable for a wide range of vehicle models.

Key Features

Core Functionalities	Full Touchscreen, Built-in Navigation, Bluetooth Hands-free, Reversing Camera Support, Handwriting Input

Media & Connectivity

Supported Formats

- MP3
- MPEG4
- WMA
- JPEG

Input Options

USB • AV Input

Audio & Radio

Radio Station Memory	36 stations
Supported Bands	AM/FM
