Product Overview

High-Performance Cooling Solution

This car radiator is engineered for efficient engine cooling and reliable thermal management. Designed with optimized fin density, it ensures maximum heat dissipation to maintain optimal engine temperatures during operation. Built to meet or exceed OEM specifications, this unit provides long-lasting durability and consistent performance for your vehicle.

Technical Specifications

DPI Number	13068
OEM Reference	19010-R

Compatibility

Compatible Vehicle	Toyota 2008 City AT
--------------------	---------------------

Key Features

Performance Highlights	High-Performance, Optimized Fin Density, OEM Specification Compliant, Durable Construction
------------------------	--
