

Cargo and Pallet Trolley

These cargo trolleys are available with capacity from 200kgs to 500kgs. The pallet trolley series offers capacity from 500kgs to 1000kgs.

Product Overview

Industrial Material Handling Solutions

This series offers versatile material handling solutions, featuring both SXE style cargo trolleys and heavy-duty pallet trolleys. Designed for demanding industrial environments like warehouses and factories, these units provide robust support for transporting goods of various sizes. With durable construction and high load capacities, they ensure reliable performance for daily logistics operations.

Performance Metrics

Cargo Trolley Capacity

200 kgs

Minimum Capacity

500 kgs

Maximum Capacity

Pallet Trolley Capacity

500 kgs

Minimum Capacity

1000 kgs

Maximum Capacity

Design Features

Key Features

- Robust metal frame construction
- Large loading platform
- Integrated wire basket for small items
- Swivel casters for high maneuverability

Application

Recommended Environments

Warehouses, Factories, Industrial Settings, Logistics
