

Cargo Transport Tricycle

This tricycle is designed for cargo transport. It features a sturdy frame and a cargo bed at the rear.

Product Overview

Professional Cargo Transport Solution

This electric tricycle is specifically engineered for efficient urban cargo delivery and logistics support. Featuring a robust, heavy-duty frame and a specialized rear cargo bed, it provides a stable and reliable platform for transporting goods through city environments. Its design prioritizes maneuverability and utility, making it an ideal choice for businesses requiring a cost-effective, short-haul transport solution.

Technical Specifications

Propulsion System

Electric Motor

Configuration

Three-wheel cargo transport

Target Use

Urban Logistics, Commercial Delivery, Short-haul Transport

Design Features

Frame Build

Heavy-duty reinforced chassis

Cargo Handling

Rear-mounted cargo bed
