

Cargo Transport Tricycle

This motorized tricycle is designed for transporting cargo. It features a motorcycle-style front end, a cargo bed, and side rails.

Product Overview

Rugged Cargo Transport Solution

This three-wheeled transport vehicle is engineered for efficient goods delivery and heavy-duty cargo handling. It features a reliable motorcycle-style front end for maneuverability and a robust rear bed with side rails for secure loading. Designed for durability, this tricycle provides a stable and practical platform for businesses requiring frequent local distribution.
