

Cargo Transport Tricycle Motorcycle

This tricycle motorcycle is engineered for cargo transport. It features a fully enclosed cabin and an open flatbed.

Overview

Versatile Cargo Transport Tricycle

This cargo transport tricycle motorcycle is engineered for reliable utility and efficient goods hauling. Featuring an enclosed driver cabin and a spacious open flatbed, it provides a practical balance between operator protection and cargo capacity. With a high-displacement engine option, it is a robust solution for short-to-medium distance logistics.
