

Cast Iron Drainage Grate

This heavy-duty cast iron grate is designed for drainage systems. Its slotted design allows maximum water flow while preventing large debris from entering the drain.

Product Overview

Heavy-Duty Drainage Solution

This heavy-duty cast iron drainage grate is engineered for superior durability and high load-bearing capacity. Its robust construction makes it an ideal choice for demanding industrial, commercial, and residential environments requiring efficient water runoff. The precision-slotted design ensures maximum flow rates while effectively preventing large debris from entering the drainage system.

Key Features

Performance Attributes

Corrosion Resistant, High Load-Bearing, Heavy-Duty, Wear Resistant

Applications

Suitable Environments

- Industrial Facilities
- Commercial Properties
- Residential Drainage Systems

Design Specifications

Design Type

Slotted
