

Category 5e UTP Ethernet Cable

Category 5e unshielded twisted pair cable is designed for data transmission in networking applications. It is constructed with copper conductors and a PVC jacket, and it complies with TIA/EIA-568-B.2 standards.

Product Overview

High-Performance Networking Solution

This Category 5e (Cat5e) unshielded twisted pair (UTP) cable is engineered for reliable data transmission across diverse networking environments. Designed to support Ethernet, Fast Ethernet, and Gigabit Ethernet, it ensures stable connectivity for professional applications. Featuring high-quality copper conductors and a robust, durable PVC jacket, this cable provides long-lasting performance and easy installation through color-coded twisted pairs.

Technical Specifications

Cable Category	Category 5e (Cat5e)
Shielding	Unshielded Twisted Pair (UTP)
Supported Networks	Ethernet, Fast Ethernet, Gigabit Ethernet

Compliance & Standards

Standards Compliance
TIA/EIA-568-B.2

Construction

Conductor Material	High-quality Copper
Jacket Material	Durable PVC

Installation Features

Key Features

- Color-coded twisted pairs for easy installation
- Reduced crosstalk design
