

# Cathode Ray Tube Television

This is a cathode ray tube television set with a flat screen. The TV features a two-tone color scheme, with a black bezel surrounding the screen and a silver-colored frame.

## Product Overview

### Professional CRT Television Overview

This cathode ray tube television features a robust, boxy design characteristic of classic display technology. The unit is engineered with a flat screen housed in a durable two-tone frame, combining a black bezel with a silver exterior for professional presentation. It serves as a reliable display solution for legacy systems, educational environments, or niche professional applications requiring authentic CRT performance.
