

Ceiling Mounted Exhaust Fan

This ceiling-mounted exhaust fan is designed for ventilation purposes. It efficiently extracts air from rooms, making it suitable for removing moisture and odors in bathrooms or kitchens.

Product Overview

Efficient Ventilation Solution

This ceiling-mounted exhaust fan is designed for effective air extraction in residential environments, such as bathrooms or kitchens. Its compact, square white housing integrates seamlessly into standard ceiling structures. The unit is optimized to remove excess moisture and odors, promoting better indoor air quality.

Physical Characteristics

Mounting Type	Ceiling Mounted
Housing Color	White
Design Features	Square Housing, Central Vent, Compact Design

Usage

Intended Applications

- Bathroom Ventilation
- Kitchen Ventilation
- General Household Use
