

Centrifugal Water Pump for Fluid Transfer

This centrifugal pump is designed for efficient fluid transfer. It features a robust construction suitable for pumping water and other non-corrosive liquids in demanding industrial environments.

Overview

Heavy-Duty Fluid Transfer Solution

This centrifugal water pump is engineered for high-performance fluid transfer in demanding industrial environments. Built with robust construction, it ensures reliability and efficiency when handling water and non-corrosive liquids. Its design focuses on durability, making it an ideal choice for professional operations requiring consistent pumping capabilities.

Technical Specifications

Compatible Liquids

Water • Non-corrosive liquids

Model Number	MS-100
Application	Industrial, Fluid Transfer, Water Pumping
