

Chemical Dosing Metering Pump

Precision metering pump designed for accurate and reliable chemical dosing in various industrial applications. Features a robust motor, adjustable stroke length, and durable construction for long-lasting performance.

Product Overview

Precision Chemical Dosing

This chemical dosing metering pump is engineered for high-accuracy fluid delivery in demanding industrial environments. Featuring a robust motor design and adjustable stroke length, it ensures reliable performance and consistent dosing rates for critical applications. The durable construction makes it an ideal solution for water treatment, chemical processing, and other fluid management systems requiring precision.

Technical Specifications

Key Features

- Adjustable stroke length for precise dosing control
- Robust motor design for long-lasting performance
- Durable construction suitable for harsh industrial environments

Applications

Suitable Industries

Water Treatment, Chemical Processing, Industrial Fluid Management
