

# Chemical Resistant Safety Gloves

These CE EN420 certified chemical resistant gloves are designed for heavy-duty use. They offer reliable protection against a range of chemical hazards.

## ADDITIONAL IMAGES

## Product Overview

### Professional Chemical Protection

These heavy-duty nitrile gloves are engineered to provide superior protection against a wide range of chemical hazards and micro-organisms. Featuring a comfortable cotton flock lining and a textured grip on the palm and fingers, they ensure both safety and dexterity for industrial and laboratory environments. With a silicone-free construction and robust thickness, these gloves are an essential choice for professionals requiring reliable barrier protection.

## Technical Specifications

### Available Sizes

- 7
- 8
- 9
- 10
- 11

Material	100% Nitrile (latex acrylonitrile butadiene: NBR)
Lining	Cotton flock
Thickness	15 mil
Length	33 cm
Color	Green

## Performance Standards

### Mechanical Risk Resistance (EN388)

Hazard Type	Level
Abrasion Resistance	4
Cut Resistance	1
Tear Resistance	0
Perforation Resistance	1

### Certifications

CE EN420 • EN374-1:2016 • EN374-5:2016 • EN388:2003 • EN 421:2010

### Chemical Permeation Resistance Codes

A, J, K, L, P, T

## Features

### Key Features

- Raised pattern texture on palm and fingers for anti-slip grip
- Flocked lining absorbs perspiration for comfort
- Silicone-free construction
- Chlorinated outside for enhanced durability
- Water and airtight
