

Children's Bicycle with Training Wheels

This children's bicycle has a red frame with yellow accents. It is equipped with training wheels and knobby tires.

Product Overview

Designed for Young Riders

This children's bicycle is specifically engineered for stability and safety, making it an ideal choice for beginners learning to ride. Featuring a durable frame and included training wheels, it provides the necessary support for young cyclists to build confidence. The design incorporates knobby tires suitable for varied terrain and reliable hand brakes for controlled stopping.
