

Children's Steel Frame Bicycle with Training Wheels

This children's bicycle features a sturdy steel frame and a steel fork. It is equipped with front and rear caliper brakes and includes training wheels for added stability.

Product Overview

Built for Young Riders

This children's bicycle is engineered with a durable steel frame, providing a stable and reliable foundation for young riders learning to balance. It features essential safety components, including front and rear caliper brakes to ensure consistent stopping power. Designed for comfort and longevity, the bike is equipped with air-filled tires and a robust three-piece steel bottom bracket system.
