

Children's Step-Through Frame Bicycle with Training Wheels

This children's bicycle features a step-through frame and training wheels. It is equipped with a rear carrier rack and mudguards.

Product Overview

Beginner-Friendly Children's Bicycle

This children's bicycle is designed with a step-through steel frame, making it exceptionally easy for young riders to mount and dismount safely. Equipped with removable training wheels, it provides the necessary stability for beginners to build confidence while learning to ride. The inclusion of a rear carrier rack and mudguards adds practical functionality to its classic aesthetic.
