

Child's Bicycle with Training Wheels

This child's bicycle features a dark blue and green color scheme. It is equipped with training wheels, front and rear fenders, a rear rack and a suspension system.

Overview

Designed for Young Riders

This durable child's bicycle is specifically engineered to support young riders as they learn to navigate on two wheels. Featuring a stable design with included training wheels, it offers a secure and confidence-building experience for beginners. The bike incorporates practical elements like front and rear fenders and a rear rack, making it a versatile choice for daily play.
