Product Overview

Professional Grade Angle Valve

This chrome-plated brass angle valve is engineered for durability and reliable performance in plumbing and HVAC&R systems. Featuring a corrosion-resistant finish and a smooth quarter-turn handle, it offers precise flow control and a secure, leak-free connection. Its compact angle configuration is specifically designed for convenient installation in tight spaces, making it an ideal choice for sinks, toilets, and various plumbing fixtures.

Technical Specifications

Maximum Working Pressure	10 bar
Operating Temperature Range	0-80°C
Thread Type	BSP
Model Code	Y00557
Valve Specification	1/2" x 3/8"

Construction & Design

Material	Brass
Finish	Chrome Plated
Key Features	Corrosion Resistant, Quarter-Turn Handle, Leak-Free Design

Manufacturing Standards

Quality & Manufacturing

- 20 years of industry expertise
- Large-scale manufacturing capacity
- Green manufacturing processes
- Guaranteed quality and cost efficiency
