

Chrome-Plated Steel Four-Way Clothing Rack

This four-way clothing rack is constructed from chrome-plated steel. Its independently adjustable arms feature stoppers to prevent hangers from sliding.

Product Overview

Professional Merchandising Solution

This four-way clothing rack is constructed from durable chrome-plated steel, designed specifically for high-traffic retail environments. It features independently adjustable arms equipped with safety stoppers to prevent hangers from sliding off, ensuring a neat and organized display. The base is engineered for both stability and ease of movement, making it an ideal choice for maximizing floor space and creating visually appealing garment merchandising setups.
