

Circular LED Lighting Fixture

This LED lighting fixture has a circular design and white housing. It incorporates a terminal block for secure wire connections and a red sealing ring to ensure a watertight seal.

Product Overview

Circular LED Lighting Solution

This circular LED lighting fixture is designed for professional applications requiring reliable illumination and secure electrical connections. Featuring a robust white housing and a dedicated terminal block, it ensures easy and safe wire integration. The unit includes a sealed entry point and a red sealing ring, providing essential environmental protection for the light source.
