

Citrus Fruit Juice Extractor with Reversible Action

This electric juicer efficiently extracts juice from citrus fruits. It features a reversible function and a detachable bowl with an aroma-protective cover.

Product Overview

Efficient Citrus Extraction

This citrus fruit juice extractor is designed for reliable daily performance, featuring a convenient 0.8-liter capacity suitable for household requirements. It utilizes an automatic reversible action mechanism to ensure maximum juice extraction from every fruit. The unit is built for ease of use with auto-start/stop functionality and a detachable bowl for simple cleaning.

Technical Specifications

Voltage	220-240V
Frequency	50Hz
Power Consumption	40 W
