

Claw Hammer with Bi-Material Handle

This claw hammer features a forged steel head for enhanced durability. Its bi-material handle provides a comfortable grip and reduces vibration during prolonged use.

Product Overview

Professional Grade Claw Hammer

This claw hammer is engineered for durability and user comfort in demanding construction and carpentry environments. Featuring a forged steel head, it provides reliable striking power and a smooth face to minimize surface damage. The ergonomic bi-material handle is specifically designed to reduce vibration and hand fatigue, ensuring better control during prolonged, heavy-duty tasks.

Technical Specifications

Head Material	Forged Steel
Handle Construction	Bi-Material Ergonomic
Key Features	Forged Steel Head, Vibration Reduction, Curved Claw, Ergonomic Grip

Application

Primary Applications

- Construction
- Carpentry
- General Repair
