

Clear Flexible Tubing for Fluid Transfer

This clear, flexible tubing is suitable for a wide range of applications. Made from durable material, it offers excellent resistance to chemicals and abrasion.

Overview

Clear Flexible Tubing for Fluid Transfer

This clear, flexible tubing is engineered for versatility across a wide range of industrial applications. Constructed from durable materials, it provides robust resistance against both chemicals and abrasion, ensuring longevity in demanding environments. The smooth inner surface is designed to promote optimal fluid flow, while its inherent flexibility allows for straightforward installation and routing in complex systems.

Key Features

Material Characteristics

Chemical Resistant • Abrasion Resistant • Flexible • Clear

Ideal Use Cases

Fluid Transfer, Pneumatic Systems, General Purpose

Performance

Flow Performance

Smooth inner surface for optimal flow
