

CNC Die Sinking EDM Machine

This high-precision CNC die sinking electro-discharge machine is designed for intricate and accurate material removal. The machine features an advanced control system and a user-friendly interface for efficient operation.

Overview

Precision Die Sinking EDM

This CNC die sinking electro-discharge machine is engineered for high-precision material removal, making it an essential tool for creating complex shapes and intricate dies. Its robust construction ensures stability during operation, while the advanced control system and high-resolution interface allow for efficient, programmable manufacturing. Designed with operator safety and optimal performance in mind, this machine is a reliable solution for demanding industrial applications.

Key Features

Capabilities	High Precision, Material Removal, Complex Shape Manufacturing, Die Sinking
--------------	--

Technical Details

Control System Features

- High-resolution display
- Programmable parameters
- User-friendly interface

Model Identifier	ZR-500
Machine Type	NC-EDM
