

# CNC Machine Water Chiller

This circulating water chiller is designed to handle cooling requirements in glass engraving CNC machines. It features precise temperature control, easy installation, and energy-saving efficiency.

## Overview

### Industrial Refrigeration Chiller

This industrial refrigeration chiller is designed for precise temperature control and high efficiency in demanding industrial applications. With a robust cooling capacity of 1800W, it ensures stable performance for equipment such as glass engraving CNC machines. The unit features a user-friendly design for easy installation and operation, making it a reliable solution for maintaining optimal thermal conditions.

## Performance Metrics

### Cooling Capacity

**1800 W**

Cooling Capacity

### Pump Power Options

- 0.03 kW
- 0.05 kW
- 0.1 kW

Flow Rate	10L/min - 16L/min
Maximum Lift	10M - 25M

## Technical Specifications

Power Requirements	110V-220V / 50/60Hz
Refrigerant	R-22, R-410a
Tank Capacity	12 L

## Physical Dimensions

### Weight

Type	Weight	Unit
Net Weight	44	Kgs
Gross Weight	50	Kgs

Product Dimensions (L x W x H)	59 x 38 x 74 cm
Packing Dimensions (L x W x H)	67 x 51 x 93 cm

## Compliance

### Certifications

CE • RoHS
