

# CNC Plasma Cutter

This CNC plasma cutter is designed for precision metal cutting. It features a user-friendly control panel with digital display and multiple connection ports.

## Overview

### Professional CNC Plasma Cutting Solution

This industrial-grade plasma cutter is engineered specifically for heavy-duty applications requiring seamless CNC system integration. It features specialized non-HF ignition technology to ensure reliable and precise arc starting every time. Designed for efficiency and performance, it delivers optimal cutting results on steel materials up to 15 mm in thickness.

## Technical Specifications

### Max Cutting Thickness

**15 mm**

Steel Thickness

Ignition Method	Non-HF Ignition
Application	Heavy Duty, CNC Integration, Professional Use
System Compatibility	Yes
