

# CNC Tooling Cart

This CNC tooling cart provides efficient organization and transport for CNC tooling. Constructed from durable steel, it features multiple shelves and compartments for secure storage of various tool sizes.

## ADDITIONAL IMAGES

## Overview

### Professional CNC Tool Management

This comprehensive CNC tool storage system is designed to maximize protection, organization, and accessibility for your valuable tooling. By providing dedicated storage solutions including trolleys, racks, and cabinets, it helps maintain a clean, efficient, and professional workshop environment. The system is engineered for durability and flexibility, ensuring your tools are safe during both storage and transport.

## Key Features

### Construction Details

Rigid Construction • Low Maintenance • Easy Installation • Heavy-Duty

### Compatible Tool Holders

BT30, BT40, BT50, HSK40, HSK63, HSK80, HSK100

### Adjustable Tool Positioning

Herringbone hole design allows for horizontal, 15-degree, or 30-degree tool placement for convenient access.

## Product Variants

### Available System Models

Model ID	Type
WLD01	CNC Tool Trolley
WLD02	CNC Tool Storage Rack
WLD03	CNC Tool Storage Cabinet

## Usage

### Suitable Environments

- Production workshops
- Maintenance workshops
- Repair workshops
- General machine shops
