Product Overview

High-Performance Coaxial Assembly Cables

These precision-engineered coaxial assembly cables are designed for reliable signal transmission in communication systems. Featuring a variety of connector configurations including F-plugs, PAL-plugs, and quick-connect options, they offer versatility for diverse installation needs. Available in multiple molding types such as RG58U, RG59U, and RG6U, these cables are built to meet rigorous industry standards for quality and durability.

Technical Specifications

Cable Diameters

- 9.5mm
- 9.0mm

Certifications

CE • RoHS • UL Listed

Available Molding Types

RG58U, RG59U, RG6U, RG3C-2V

Connector Configurations

Available Connector Assemblies

Model	Configuration
C-1706	F Plug to F Plug
C-2003	F Quick Plug (Right Angle) to F Quick Plug
C-1713	PAL Plug to F Quick Plug
C-2026	F Crimping Waterproof (Both Ends)
C-2044	F Plug to PAL Plug
C-3001	PAL Plug to PAL Plug
C-3002	PAL Plug to PAL Jack
