

Coffee Bean Display Freezer

This compact freezer is designed for displaying and preserving coffee beans or other temperature-sensitive products. It features a stainless steel exterior, glass door for clear visibility, adjustable shelves, and precise temperature control.

Overview

Compact Display Solution

This compact display freezer is engineered for the precise preservation of temperature-sensitive items like coffee beans. Featuring a durable stainless steel exterior and a glass door for optimal product visibility, it is an ideal solution for cafes, restaurants, and specialty food retail environments. With its efficient compressor cooling system and flexible voltage options, it offers reliable performance in a space-saving design.

Technical Specifications

Cooling System	Compressor
Temperature Range	0°C to -10°C
Refrigerant	R134a (36g)
Climate Class	N

Electrical Requirements

Power Performance

76 W

Input Power

Voltage Compatibility	110V/60Hz, 220V/50Hz
