

# Combination Bicycle Spiral Lock

This high-security combination spiral lock is designed for bicycles and other valuable items. The lock features a durable, weather-resistant cable and a resettable four-digit combination mechanism for reliable protection.

## Product Overview

### High-Security Spiral Lock

This combination spiral lock is designed to provide reliable security for bicycles, motorcycles, gates, and other valuable items. Featuring a durable, weather-resistant braided steel cable with a protective PVC coating, it offers both strength and flexibility while preventing scratches. The resettable four-digit combination mechanism is built with hardened steel components to ensure tamper resistance and long-term durability.
