

Combination Head Protectors for Hearing Protection

These combination head protectors provide comprehensive hearing protection. They feature durable construction, comfortable earcups, and adjustable headbands for a customized fit.

Product Overview

Comprehensive Hearing Protection

The HM506 Combination Head Protectors are engineered to deliver robust hearing protection across diverse industrial environments. Featuring durable construction and ergonomic earcups, these protectors are built for extended wear and user comfort. The adjustable headband ensures a secure and customized fit for various head sizes, while the high noise reduction rating effectively attenuates ambient noise to safeguard workers in high-decibel settings.
