

Commercial Ice Cream Display Freezer

This commercial ice cream display freezer is designed for showcasing and preserving frozen treats. It features a transparent glass door for product visibility, internal lighting to enhance presentation, and temperature control for optimal storage.

Product Overview

Commercial Ice Cream Display Freezer

This commercial display freezer is specifically designed for showcasing and preserving ice cream and other frozen treats in retail environments. Featuring a transparent glass door with heating technology and internal lighting, it ensures optimal product visibility and presentation. With a robust cooling system and precise digital temperature control, it maintains a consistent environment between -18°C and -25°C, making it an ideal solution for convenience stores, cafes, and ice cream parlors.

Performance & Cooling

Cooling Temperature

-18 °C

Minimum Temp

-25 °C

Maximum Temp

Daily Energy Consumption	2 KW.H/24H
Refrigerant	R134a (95g)
Climate Type	N/ST

Electrical Specifications

Voltage/Frequency	AC220V 50Hz, AC110V 60Hz
Rated Current	1.8 A

Physical Dimensions

Dimensions & Capacity

Metric	Value
Internal Volume	70L
External Dimensions	595 x 570 x 835 mm
Internal Dimensions	455 x 405 x 455 mm
Net/Gross Weight	46 / 50 KG

Configuration & Features

Construction Materials

- Sprayed sheet metal exterior
- Aluminum alloy interior liner
- Copper tube evaporator
- Aluminum frame electric heating glass door

Additional Features

Digital Temperature Display • External Condenser • Adjustable Shelving • Door Lock Included • Customizable Exterior Color • Customizable Sticker Design
