

Commercial Induction Cooktop with Digital Display

This commercial induction cooktop features a durable stainless steel housing and a smooth, easy-to-clean glass ceramic surface. It offers precise temperature control and rapid heating, making it ideal for professional kitchens.

Product Overview

Professional Commercial Induction Cooktop

This high-performance induction cooktop is engineered for the demands of professional kitchen environments. Featuring a robust stainless steel housing and a durable, easy-to-clean glass-ceramic surface, it combines longevity with high efficiency. Its rapid heating technology and precise digital controls ensure consistent cooking results, while the space-saving compact design maximizes workflow in busy kitchens.
