

Compact Angle Grinder for Cutting and Polishing

This compact angle grinder is designed for cutting, grinding, and polishing various materials. It features a robust motor for efficient performance and durable construction.

Overview

Compact Angle Grinder

This compact angle grinder is engineered for efficient cutting, grinding, and polishing tasks. With a robust 800W motor and a 100mm wheel diameter, it provides reliable performance for various material processing requirements. Its lightweight design at 2.0kg ensures ease of handling during extended professional use.

Technical Specifications

Rated Power Input

800 W

Power Input

Rated Speed	9000 r/min
Max. Wheel Diameter	100 mm
Hole Diameter of Wheel	16 mm
Net Weight	2 Kg

Applications

Recommended Uses	Cutting, Grinding, Polishing
